

Health and Safety Policy Statement

Leading the way to a greener safer future...

Carter Construction (Derby) Ltd has prepared this General Health and Safety Policy Statement with guidance provided by the Health and Safety Executive (HSE). This General Policy Statement intends to confirm the commitment Carter Construction has to comply with the current legislation and provides such information as is necessary to assist those persons using it to fulfil their obligations.

Carter Construction is a professional and safety conscious company that values the effective management of health, safety and welfare throughout all of its business operations. It is Carter Construction's policy to reduce accidents, injuries and work-related ill health to the lowest level practicable. Where hazards exist Carter Construction will evaluate, control and bring these to the attention of all employees. Everyone who works for Carter Construction has a collective legal duty to co-operate in all safety related matters, not to endanger themselves or others and not to misuse anything provided for safety. In particular, all persons are to ensure that appropriate safety rules are followed.

Carter Construction will produce an annual, on-going, Health and Safety plan and budgets to provide such insurance, external inspection, facilities, equipment and training as is required for those persons to fulfil their responsibilities.

Risk assessments, audits and general inspections will be undertaken at regular intervals by those trained to do so. This will enable management to identify significant hazards and plan for their elimination, reduction and control.

Whilst on our premises, visitors are accounted for, escorted and protected from workplace hazards. Contractors will be supervised and controlled.

The Managing Director is directly responsible for Health and Safety co-ordination within Carter Construction and, together with the Company Management, actively ensures that the working environment is safe, without significant risks and meets the appropriate

statutory requirements. It is expected that all Company Management, Direct Employees and Subcontract Employees have a vital role in the implementation and maintenance of our health and safety policy.

All our direct employees are given adequate information and training as is necessary to ensure their safety, during routine, unscheduled and emergency situations, together with the appropriate facilities and equipment.

Carter Construction (Derby) Ltd ensures that the Health and Safety Policy is reviewed annually and that the changes are brought to the attention of, and implemented by, all employees.

...Collectively we can make a difference

Signed:

Mr. R. I. Carter – Managing Director
